Prayer Writing Experience Tour

EXPERIENCE

Overview

Discover Japan’s spiritual heritage at one of Tokyo’s most distinguished shrines, with a history spanning over 1,000 years and dedicated to Amaterasu Omikami and Toyouke Omikami.
Guided by a Shinto priest, participants will learn traditional shrine etiquette and take part in a shrine visit. The program includes a unique prayer-writing experience, copying passages from the Oharae-no-Kotoba (Great Purification Prayer) in the prayer hall, followed by traditional Japanese sweets featuring the shrine’s crest. Designed for first-time visitors, this immersive cultural experience offers a deeper understanding of Japanese traditions and spirituality through all five senses.

Service Contents

* Learn the proper etiquette for a formal Shinto shrine visit, including the traditional ritual of two bows, two claps, and one bow.
* Exclusive to DMO SHIBA Tokyo Bay: Experience copying passages from the Oharae-no-Kotoba (Great Purification Prayer) in the spacious 100-tatami prayer hall.
* Enjoy traditional Japanese dry sweets inspired by the sacred crests of Shiba Daijingu Shrine and Ise Grand Shrine.

Remarks

* Group Size: Approximately 10–50 participants
* Duration: Approximately 60 minutes
* Venue: Shiba Daijingu Shrine (1-12-7 Shibadaimon, Minato City)
* Language: Japanese
* Notes: Chairs are not provided (floor chairs may be available upon request).
  Please dress modestly and respectfully.
  Socks must be worn.

DMO SHIBA, Tokyo Bay

AREA MICE SUPPORT PROGRAM

Experience traditional Japanese food culture "rice ball and miso making"

EXPERIENCE

DMO SHIBA, Tokyo Bay

Cooperation : Cafe and Giftshop Kome dreaming

Overview

Enjoy a memorable hands-on experience exploring Japan’s rich fermentation culture through miso and onigiri making.
Guided by an experienced instructor, participants will learn about the traditional ingredients of miso, including soybeans and koji, and prepare their own batch of miso. The program also includes making onigiri (rice balls) using locally sourced Tokyo rice and ingredients inspired by Edo-period cuisine.
This interactive experience engages all five senses and offers a unique introduction to Japanese food culture. With step-by-step guidance throughout the program, even first-time participants can join with confidence.

Service Contents

* Using locally grown Tokyo rice and tsukudani (traditional simmered seafood and seaweed condiments) from Tamakiya, a long-established specialty food store with a history of over 240 years in the Hamamatsucho–Daimon area, participants will learn about the history of onigiri while experiencing Edo-period food culture. After making their own rice balls, participants can enjoy a tasting of rice-koji amazake, a traditional Japanese fermented beverage.
* The miso-making session offers a hands-on opportunity to prepare authentic miso from soybeans and koji. The program also includes a tasting of three different types of miso and freshly prepared miso soup. This interactive and enjoyable experience provides a welcoming atmosphere for networking, cultural exchange, and team building.

Remarks

* Group Size: 1–50 participants (larger groups upon request)
* Duration: Approximately 60–90 minutes
* Venue: Cafe and Giftshop Kome dreaming (1-7-14 Shibakoen, Minato City)
* Languages: Japanese and English
* Notes: Allergies and Dietary Restrictions: Please inform us at the time of booking if any participants have food allergies or dietary restrictions.
  Attire: For hygiene and safety reasons, participants may be asked to bring an apron, head covering (e.g., bandana or kerchief), and hand towel.

AREA MICE SUPPORT PROGRAM

Parent-child program Experience making miso, rice balls, and bread from scratch, and historical exploration

EXPERIENCE

DMO SHIBA, Tokyo Bay

Cooperation : Cafe and Giftshop Kome dreaming

Overview

This customizable educational program offers engaging activities for both children and parents to enjoy together. Participants can take part in hands-on food education experiences, such as bread-making using rice flour and traditional miso-making, as well as child-friendly activities including historical exploration and interactive mystery-solving games. The program can be tailored to suit the objectives and interests of each group, making it an ideal choice for corporate Family Days, employee welfare events, and family-oriented gatherings.

Service Contents

＊We offer hands-on educational activities that encourage children to learn through creativity, including miso-making, onigiri-making, and bread-making from rice. The program can also include the Hamamatsucho–Daimon History Adventure, a fun quiz-based activity that introduces local history through interactive exploration. Historical quiz content supervised by the Chair of the Temple and Shrine Committee of the Tokyo Minato City Travel & Tourism Association is also available.
Staff members are present throughout the program to ensure a safe and enjoyable experience. Children can take home the bread or miso they have made, creating lasting memories and meaningful family conversations long after the event. Ideal for family-friendly corporate events and Family Day programs.

Remarks

＊Group Size: 1–50 participants (groups of 51 or more upon request)
＊Duration: Approximately 60–90 minutes
＊Venue: Cafe and Giftshop Kome dreaming(1-7-14 Shibakoen, Minato City)
＊Languages: Japanese and English (English interpretation available by bilingual staff)
＊Notes: Please inform us at the time of booking of any food allergies, dietary restrictions, or special dietary requirements.

AREA MICE SUPPORT PROGRAM

Takeshiba Tidal Flat Environmental Survey Team Building

EXPERIENCE

Overview

This experiential tour takes participants to one of the closest waterfront natural spaces in central Tokyo, where they can observe tidal-flat wildlife while learning about the creation of the tidal flats, their ecological importance, and current environmental challenges. The program offers a unique opportunity to experience the rich natural environment of the tidal flats firsthand and gain a deeper understanding of the issues affecting coastal ecosystems. Participants can observe the changing marine environment throughout the seasons, and optional activities such as water quality testing and fishing surveys can be incorporated to provide a more interactive and educational experience.

Service Contents

* Introduction to the biodiversity of Tokyo Bay
* Guided seasonal observation of the tidal flat ecosystem
* Coastal wildlife survey on the tidal flat (includes fishing experience)
* Microplastics investigation
* Coastal plant observation

Remarks

* Group Size: 5–20 participants (capacity varies depending on the activity)
* Duration: Approximately 30–75 minutes (varies by activity)
* Venue: Takeshiba Tidal Flat (1-10-30 Kaigan, Minato City)
* Languages: Japanese and English (English interpretation available by bilingual staff)
* Notes: Participants should wear footwear suitable for walking on sand (high heels are not permitted).
  Additional activity-specific instructions and safety guidelines may apply.

SHAKOBA Content
Dry landscape garden Mindfulness workshop

EXPERIENCE

Overview

This mindfulness workshop invites participants to create intricate sand patterns using a miniature Zen garden (Karesansui) kit while enjoying a tranquil atmosphere enhanced by music. Designed to promote relaxation, focus, and mental clarity, the experience is ideal for preparing participants before meetings or conferences, as well as for those seeking a meaningful Japanese cultural experience before departing Japan.
By combining traditional Japanese aesthetics with moments of quiet reflection, the program offers a unique opportunity to recharge, improve concentration, and connect with the spirit of Zen.

Service Contents

* Experience creating intricate sand patterns using a miniature Zen garden (Karesansui) kit
* Introduction to the principles of Zen gardens and Japanese cultural traditions
* A unique sensory experience combining Zen garden creation with carefully selected background music to enhance relaxation and mindfulness

Remarks

* Group Size: Approximately 1–20 participants (subject to consultation)
* Duration: 30–60 minutes (flexible based on requirements)
* Venue: SHAKOBA(1-10-45 Kaigan, Minato City)
* Languages: Japanese, English, and Chinese
* Notes: Particularly suitable as a morning program or pre-meeting mindfulness session.
  Reservation required at least 1 month in advance.

SHAKOBA Content
Kaidan × Live Music

EXPERIENCE

Overview

This immersive nighttime program combines traditional Japanese ghost stories (Kaidan) with live musical performances to create a unique cultural experience. Enhanced by visual projections and multilingual storytelling support, the program allows international participants to engage deeply with one of Japan's most distinctive cultural traditions. Ideal as an after-MICE activity or gala dinner entertainment, the experience blends suspense, music, and storytelling to deliver a memorable evening that showcases the rich imagination and aesthetic sensibilities of Japanese culture.

Service Contents

* An immersive performance combining classic Japanese ghost stories, including works inspired by Lafcadio Hearn, with local legends from the Shiba area, live musical accompaniment (such as strings or piano), and projected visual storytelling.
* Flexible program arrangements available to suit event requirements, including customized musical ensembles, performance formats, and production elements.

Remarks

* Group Size: Up to approximately 80 participants (subject to consultation)
* Duration: 30–60 minutes (flexible based on requirements)
* Venue: SHAKOBA(1-10-45 Kaigan, Minato City)
* Languages: Japanese, English, and Chinese
* Notes: The program complements the rich cultural heritage of the Shiba and Zojoji Temple area, further enhancing the unique character of the Takeshiba district.
  Particularly well suited for evening programs, after-MICE activities, and gala dinner entertainment.
  Daytime performances are also available.
  Reservation required at least 1 month in advance.

AREA MICE SUPPORT PROGRAM

Lecture on fermentation

LECTURE

Overview

Participants will learn about the history and production process of amazake, as well as the unique role of koji mold in Japanese fermentation. Through easy-to-understand explanations, the program introduces the science and appeal of fermentation while offering insights into Japan’s rich culinary traditions. An engaging experience that combines cultural learning with delicious tasting.

Service Contents

* With fermentation attracting growing global attention, this lecture explores the history and production of amazake, as well as the unique role of koji mold in Japanese food culture. Guided by an expert instructor, participants will gain an easy-to-understand introduction to the science and appeal of fermentation.
* Lecture content can be customized under the supervision of a long-established koji producer founded in 1873. Through this engaging and educational program, participants will deepen their understanding of Japan’s rich culinary heritage while discovering the traditions and innovations behind fermented foods.

Remarks

* Group Size: 15–100 participants
* Duration: Approximately 60 minutes
* Venue: Cafe and Giftshop Kome dreaming (1-7-14 Shibakoen, Minato City)
* Languages: Japanese and English
* Notes: Flexible format ranging from small-group talks at the café to large-scale lecture events.

AREA MICE SUPPORT PROGRAM

Exploring the history of Hamamatsucho Daimon

LECTURE

Overview

Explore the Hamamatsucho–Daimon area, where historic landmarks and modern urban development coexist, with the guidance of a professional local expert. Visiting sites such as Zojoji Temple and Kyu-Shiba-rikyu Gardens, participants will gain insights into the evolution of Tokyo from the Edo period through modernization.
More than a sightseeing tour, this experiential learning program incorporates training elements designed to inspire fresh perspectives and creative thinking. By exploring the concept of onko-chishin—learning from the past to create new value for the future—participants are encouraged to discover new approaches to problem-solving, innovation, and teamwork that can be applied in their professional lives. This program is well suited for corporate training, incentive events, and team-building activities.

Service Contents

* A professional guide with deep knowledge of the Hamamatsucho–Daimon area will lead participants on a walking tour of Zojoji Temple and other historic sites. More than a sightseeing experience, this program offers valuable learning opportunities by exploring how this Tokugawa-related district developed from Edo into a modern business hub. Through expert insights into the area's history and urban development, participants gain fresh perspectives and inspiration. Optional activities such as historical mystery-solving and team discussions can also be incorporated to enhance engagement and interaction.

Remarks

* Group Size: 1–20 participants (groups of 21 or more upon request)
* Duration: Approximately 60–90 minutes
* Venue: Cafe and Giftshop Kome dreaming (1-7-14 Shibakoen, Minato City)
* Languages: Japanese and English (English interpretation available by bilingual staff)

Takeshiba's New Eight Sceneries Sustainable Inspection Tour

LECTURE

Overview

Tokyo Portcity Takeshiba Office Tower is located in a rare urban setting where rich natural elements are preserved within central Tokyo. Leveraging this unique environment, the area promotes biodiversity and environmental initiatives through the “Takeshiba’s New Eight Sceneries,” which consist of eight themed landscapes: rain, water, island, rice field, fragrance, vegetable garden, bees, and sky.
The “Takeshiba’s New Eight Sceneries” tour introduces these sustainability initiatives and showcases how large-scale urban development in Tokyo integrates nature conservation and environmentally conscious design.

Service Contents

* Lecture on the “Takeshiba’s New Eight Sceneries”
* Guided tour of the “Takeshiba’s New Eight Sceneries”

Remarks

* Group Size: 10–30 participants
* Duration: Approximately 60 minutes
* Venue: Tokyo Portcity Takeshiba City Plaza (1-7-1 Kaigan, Minato City)
* Languages: Japanese and English

DMO SHIBA, Tokyo Bay

Pop & Tech related company/ organization performances

LECTURE

Overview

A lecturer dispatch service that leverages networks such as the CiP Council in Takeshiba, a hub for content and digital industries, to deliver insights on the implementation of cutting-edge technologies and innovation in the area. Tailored themes are provided based on client needs, offering workshop-style sessions that support problem-solving, and lead to potential future pilot projects and long-term business value creation.

Service Contents

* A co-creation workshop leveraging the CiP Council's strong industry–academia–government–private network, where participants gain insights from leading digital/content companies and student entrepreneurs on cutting-edge business and "zero-to-one" innovation.
* Future society design lectures by experts from institutions such as Keio University's Graduate School of Media Design (KMD), exploring themes like AI co-existence and neurodiversity with a focus on real-world social implementation and new value creation.
* Practical sessions examining case studies such as the fusion of Vocaloid culture and traditional heritage, and strategies for utilizing local assets—including Kyu-Shiba-rikyu Gardens and water transport networks—for MICE and the night-time economy.

Remarks

* Group Size: 30–500 participants
* Duration: 30–120 minutes
* Languages: Japanese and English (interpretation support available)
* Notes: Venue arrangements can be introduced separately if required. Some programs may fall outside the support scheme depending on the lecturer or content and may require a separate quotation.

Arrangement of the SHIBA Tokyo Bay MICE MAP

PROMOTION

Overview

Information about your MICE event—including venue locations, program details, and other relevant content—can be featured on a digital map that consolidates MICE facilities and local area information across the SHIBA Tokyo Bay area. The map can be shared with participants as a convenient guide, helping them navigate the destination and access event-related information throughout their stay.

Service Contents

* Listing of MICE event information on the SHIBA Tokyo Bay Digital Map
* Display of event venue locations with map pins on the digital map
* Organizer logo and welcome message displayed when the digital map is launched
* Display of participant benefits, such as coupons and special offers, on the digital map

Remarks

* Languages: Japanese and English

DMO SHIBA, Tokyo Bay

Cooperation：Takeshiba Area Management General Incorporated Association

Pedestrian deck digital signage

Overview

A digital signage system on the pedestrian deck connecting to Hamamatsucho Station (scheduled for completion in March 2027) offers visibility to both MICE participants and general pedestrians. Overlooking Kyu-Shiba-rikyu Gardens and the surrounding waterfront cityscape, it enables event organizers to promote MICE programs and related information to a wide urban audience in a highly visible location.

Service Contents

* Pedestrian deck digital signage (3 locations, 6 screens)
* 30-second slots / 6-minute rotation loop

Remarks

* Venue: Takeshiba pedestrian deck (Minato Pedestrian Route No. 8)
* Notes: As the signage is installed on public roads, all content is subject to prior review and approval. Area-wide promotion and city dressing (e.g., streetlight flags) can also be proposed separately.
